Full Year 2020 Results

2020 Sales

Worldwide
Increased

$82.6B 0.6%

Excluding acquisitions/divestitures on an operational basis

$84.0B 1.5%

Diluted Earnings Per Share

Decreased

$5.51 (2.1)%

Adjusted Diluted Earnings Per Share

Decreased

$8.03 (7.5)%

Worldwide Consumer Health Sales

$14.1 Billion

Consumer Health worldwide reported sales increased 1.1% or 3.0% operationally. Primary operational drivers:

- TYLENOL
- LISTERINE
- BAND-AID
- Aveeno
- Orajel
- ZARREES
- ZYRTEC

Worldwide Pharmaceutical Sales

$45.6 Billion

Pharmaceutical worldwide reported sales increased 3.0% or 2% operationally. Primary operational drivers:

- Stelara
- RAZALEN
- intramusical
- Sym�za
- Trumyca
- Eylea

Worldwide Medical Devices Sales

$23.0 Billion

Medical Devices worldwide reported sales decreased (11.6)% or (11.4)% operationally. Offsets to decline

Electrophysiology
Neurovascular

“Our notable full-year performance reflects the continued confidence from patients, physicians, customers and consumers in our life-enhancing products and medicines, particularly throughout the COVID-19 pandemic. I’m incredibly proud of our Johnson & Johnson teams around the world for going above and beyond to meet stakeholder needs. These efforts, and our commitment to families around the world as the largest broad-based healthcare company, enabled us to lead in the fight against COVID-19. We continue to progress our COVID-19 vaccine candidate and look forward to sharing details from our Phase 3 study soon. Johnson & Johnson was built for times like these, and I am extremely confident in our ability to deliver lasting value and continued innovation in 2021 and for years to come.”

Alex Gorsky
Chairman and
Chief Executive Officer
Johnson & Johnson

*Non-GAAP measure: excludes the impact of transitional currency.

Caution Concerning Forward-Looking Statements: This document contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995 regarding future operating and financial performance. You are cautioned not to rely on these forward-looking statements, which are based on current expectations of future events. For important information about the risks and uncertainties that could cause actual results to vary materially from the assumptions, expectations, and projections expressed in any forward-looking statements, review the “Note to Investors Concerning Forward-Looking Statements” included in the Johnson & Johnson earnings release issued on January 26, 2021, as well as the most recently filed Johnson & Johnson Reports on Form 10-K and 10-Q. Johnson & Johnson does not undertake to update any forward-looking statement as a result of new information or future events or developments.
4th Quarter 2020 Earnings Call

January 26, 2021
Cautionary Note on Forward-looking Statements

This presentation contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things: future operating and financial performance, product development, market position and business strategy. The reader is cautioned not to rely on these forward-looking statements. These statements are based on current expectations of future events. If underlying assumptions prove inaccurate or known or unknown risks or uncertainties materialize, actual results could vary materially from the expectations and projections of Johnson & Johnson. Risks and uncertainties include, but are not limited to: risks related to the impact of the COVID-19 global pandemic, such as the scope and duration of the outbreak, government actions and restrictive measures implemented in response, material delays and cancellations of medical procedures, supply chain disruptions and other impacts to our business, or on our ability to execute business continuity plans, as a result of the COVID-19 pandemic; economic factors, such as interest rate and currency exchange rate fluctuations; competition, including technological advances, new products and patents attained by competitors; challenges inherent in new product research and development, including uncertainty of clinical success and obtaining regulatory approvals; uncertainty of commercial success for new and existing products; challenges to patents; the impact of patent expirations; the ability of the company to successfully execute strategic plans; the impact of business combinations and divestitures; manufacturing difficulties or delays, internally or within the supply chain; product efficacy or safety concerns resulting in product recalls or regulatory action; significant adverse litigation or government action, including related to product liability claims; changes to applicable laws and regulations, including tax laws and global health care reforms; trends toward health care cost containment; changes in behavior and spending patterns of purchasers of health care products and services; financial instability of international economies and legal systems and sovereign risk; increased scrutiny of the health care industry by government agencies. A further list and descriptions of these risks, uncertainties and other factors can be found in Johnson & Johnson's Annual Report on Form 10-K for the fiscal year ended December 29, 2019, including in the sections captioned “Cautionary Note Regarding Forward-Looking Statements” and “Item 1A. Risk Factors,” in the company’s most recently filed Quarterly Report on Form 10-Q and the company’s subsequent filings with the Securities and Exchange Commission. Copies of these filings are available online at www.sec.gov, www.jnj.com or on request from Johnson & Johnson. Any forward-looking statement made in this presentation speaks only as of the date of this presentation. Johnson & Johnson does not undertake to update any forward-looking statement as a result of new information or future events or developments.

Cautionary Note on Non-GAAP Financial Measures

This presentation refers to certain non-GAAP financial measures. These non-GAAP financial measures should not be considered replacements for, and should be read together with, the most comparable GAAP financial measures.

A reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the accompanying financial schedules of the earnings release and the Investor Relations section of the Company’s website at www.investor.jnj.com.
Strategic Partnerships, Collaborations & Licensing Arrangements

During the course of this morning’s presentation, we will discuss a number of products and compounds developed in collaboration with strategic partners or licensed from other companies. The following is an acknowledgement of those relationships:

**Immunology**
- REMICADE and SIMPONI/ SIMPONI ARIA marketing partners are Schering-Plough (Ireland) Company, a subsidiary of Merck & Co., Inc. and Mitsubishi Tanabe Pharma Corporation, and TREMFYA discovered using MorphoSys AG antibody technology.

**Neuroscience**
- INVEGA SUSTENNA/ XEPLION/ INVEGA TRINZA/ TREVICTA includes technology licensed from Alkermes Pharma Ireland Limited, RISPERDAL CONSTA developed in collaboration with Alkermes, Inc.

**Infectious Diseases**
- PREZCOBIX/ REZOLSTA fixed-dose combination, SYMTUZA and ODEFSEY developed in collaboration with Gilead Sciences, Inc., and JULUCA and CABENUVA developed in collaboration with Viiv Healthcare UK.

**Cardiovascular/ Metabolism/Other**
- INVOKANA/ INVOKAMET/ VOKANAMET/ INVOKAMET XR fixed-dose combination licensed from Mitsubishi Tanabe Pharma Corporation, XARELTO co-developed with Bayer HealthCare AG, PROCRIT/ EPREX licensed from Amgen Inc., and X-Linked Retinitis Pigmentosa: AAV-RPGR licensed from MeiraGTx.

**Oncology**
- IMBRUVICA developed in collaboration and co-marketed in the U.S. with Pharmacyclics, LLC, an AbbVie company, ZYTIGA licensed from BTG International Ltd., VELCADE developed in collaboration with Millennium: The Takeda Oncology Company, DARZALEX licensed from Gemtab A/S, BALVERSA discovered in collaboration with Astex Pharmaceuticals, Inc., and custatuzumab licensed and developing in collaboration argenx BVBA and argenx SE. ERLEADA is licensed from Regents of California and Memorial Sloan Kettering, BCMA CAR-T licensed and developed in collaboration with Legend Biotech USA Inc., Legend Biotech Ireland Limited ("Legend"), subsidiaries of GenScript Biotech Corporation, niraparib licensed from TESARO, Inc., an oncology-focused business within GSK, and DuoBody platform licensed from Gemtab relates to several bispecific antibody programs; ENHANZE platform licensed from Halozyme Therapeutics, Inc.

**Pulmonary Hypertension**
- UPTRAVI license and supply agreement with Nippon Shinyaku (co-promotion in Japan), and OPSUMIT co-promotion agreement with Nippon Shinyaku in Japan.

**Global Public Health**
- Janssen’s Monovalent Ebola Vaccine is developed in collaboration with Bavarian Nordic A/S, and MVA-BN-Filo® is licensed-in from Bavarian Nordic A/S. The program has benefited from funding and preclinical services from the National Institute of Allergy and Infectious Diseases (NIAID), part of NIH. NIAID support included 2 product development contracts starting in 2008 and 8 pre-clinical services contracts. This program is also receiving funding from the IM2 Joint Undertaking under EBOVAC1 (grant nr. 115854), EBOVAC2 (grant nr. 115861), EBOVAC3 (grant nr. 800176), EBOVAC (grant nr. 115850) and EBODAC (grant nr. 115847). The IM2 Joint Undertaking receives support from the European Union’s Horizon 2020 research and innovation program and the European Federation of Pharmaceutical Industries and Associations (EFPIA). Further funding for the Ebola vaccine regimen has been provided by the BARDA, within the U.S. Department of Health and Human Services’ Office of the Assistant Secretary for Preparedness and Response, under Contract Numbers HHSO100201700013C and HHSO100201500008C.. The initial work on Ebola was conducted which was extended from 2002 until 2011, 2002 and 2007 via a Cooperative Research and Development Agreement (CRADA is AI-0114) between Janssen-Crutchell and the Vaccine Research Center (VRC)/NIAID, part of the NIH.

Janssen/Crucell have licenses to much of VRC’s Ebola IP specific for human adenovirus under the Ad26/Ad35 Ebola vaccine CRADA invention. VAC69120 (Filovirus multivalent vaccine) developed in collaboration with Bavarian Nordic; funding: NIH Division of Microbiology and Infectious Diseases (DMID), under Contract Number HHSN272200800056C.
Our Credo

We believe our first responsibility is to the patients, doctors and nurses, to mothers and fathers and all others who use our products and services. In meeting their needs everywhere, we are guided by a commitment to quality. We must constantly strive to provide value, reduce our costs and maintain reasonable prices. Customer orders must be filled promptly and accurately. Our business partners must have an opportunity to make a fair profit.

We are responsible to our employees who work with us throughout the world. We must provide an inclusive work environment where each person must be considered as an individual. We must respect their diversity and dignity and respect their work. They must have a sense of security, fulfillment and purpose in their jobs. Compensation must be fair and adequate and working conditions clean, orderly and safe. We must support the health and well-being of our employees and help them fulfill their family and other personal responsibilities. Employees must feel free to make suggestions and comments. There must be equal opportunity for advancement, development and advancement for those qualified. We must provide highly capable leaders and their actions must be just and ethical.

We are responsible to the communities in which we live and work and to the world community as well. We must help people be healthier by supporting better access and care in more places around the world. We must be good citizens — support good works and charities, better health and education, and build up our share of the economy. We must maintain in good order the property we are privileged to use, protecting the environment and natural resources.

Our final responsibility is to our stockholders. Business must make a sound profit. We must experiment with new ideas. Research must be encouraged, inventive progress desired, imagination expected for the future and mistakes paid for. New equipment must be purchased, new facilities provided and new products launched. Reserves must be created to provide for adverse times. When we operate according to these principles, the stockholders should realize a fair return.
Good health is pivotal to our safety, security and prosperity as a society.

**Key Drivers of Operational Performance¹**

**OTC**
- U.S. flat due to share and e-commerce/club channel growth across multiple brands including TYLENOL in pain primarily driven by COVID-19 demand, PEPCID due to competitive withdrawal, and ZYRTEC due to competitive out-of-stock offset by category declines due to lower cough/cold/flu incidences attributed to COVID-19 restrictions and lapping prior year stocking
- OUS decline due to COVID-19 negative impacts driven by restrictions resulting in lower cough and flu incidences partially offset by increased consumption in anti-smoking aids in EMEA, Children’s MOTRIN in China and Adult TYLENOL in Canada

**Skin Health/Beauty**
- U.S. growth driven by e-commerce and club channel across several brands, OGx and MAUI MOISTURE share gains mostly offset by COVID-19 related market declines coupled with competitive pressures
- OUS growth driven by Dr. CI LABO, NEUTROGENA, OGx and AVEENO due to e-commerce and innovations. Results were partially offset by lower consumption, and COVID-19 impacts in JOHNSON’s Adult in EMEA

**Oral Care**
- Growth primarily due to LISTERINE mouthwash share gains driven by strong e-commerce and club channel performance, mouthwash category growth related to increased COVID-19 demand and new product offerings in APAC

**Baby Care**
- U.S. growth due to JOHNSON’s and AVEENO e-commerce growth driven by COVID-19 demand and increased retailer stocking
- OUS decline due to SKU rationalization and the negative impact of COVID-19 partially offset by growth in AVEENO baby

**Women’s Health**
- Declines driven by liners and internal sanitary protection driven by COVID-19 impacts across all regions partially offset by growth in napkins in APAC

**Wound Care/Other**
- Share and market growth in e-commerce in NEOSPORIN and BAND-AID® Brand Adhesive bandages primarily attributed to elevated COVID-19 demand

**Adjusted Operational Sales²**: WW 2.1%, U.S. 2.8%, Int’l 1.6%

Additional shipping days contributed ~4% to WW growth

¹ Non-GAAP measure; excludes acquisitions and divestitures and translational currency; see reconciliation schedules in the Investors section of the company’s website.
² Non-GAAP measure; excludes acquisitions and divestitures and translational currency; see reconciliation schedules in the Investors section of the company’s website.

Note: Values may not add due to rounding.
### Key Drivers of Operational Performance

**Immunology**
- Growth driven by strong uptake of STELARA in Crohn's Disease and Ulcerative Colitis, strength of TREMFYA in Psoriasis and uptake in Psoriatic Arthritis, and volume/share gains in SIMPONI ARIA
- REMICADE decline due to increased discounts/rebates and biosimilar competition

**Infectious Diseases**
- Growth driven by strong sales of SYMTUZA in the U.S. and uptake of JULUCA in the EU, partially offset by increased competition for PREZISTA/PREZCOBIX/REZOLSTA and PREZISTA OUS LOE

**Neuroscience**
- Paliperidone long-acting injectables growth due to strength of INVEGA SUSTENNA/XEPLION and INVEGA TRINZA/TREVICTA from new patient starts and persistency

**Oncology**
- DARZALEX increase driven by continued strong market growth and share gains in all regions and solid uptake of the subcutaneous formulation that was approved in the U.S. and EU in Q2
- Strong sales of IMBRUVICA due to market growth/leadership position in the U.S. and increased patient uptake outside the U.S.
- Continual strong global launch uptake of ERLEADA
- Lower sales and share of VELCADE and U.S. ZYTIGA due to generic competition

**Cardiovascular/Metabolism/Other (CVM/Other)**
- Decline driven by lower sales of PROCRIT/EPREX due to biosimilar competition
- Modest growth in XARELTO due to demand growth, partially offset by increased rebates
- INVOKANA/INVOKAMET increase due to market growth and favorable channel mix in the U.S., as well as strength in the EU, partially offset by U.S. share declines due to competitive pressures

**Pulmonary Hypertension (PH)**
- Growth driven by strong sales of OPSUMIT and UPTRAVI due to continued share gains, market growth, and the favorable impact of a distributor model change that took place in the U.S. in Q4 2019

### Adjusted Operational Sales

- WW 14.6%, U.S. 15.2%, Int’l 13.7%
- Additional shipping days contributed ~4% to WW growth

Notable New Announcements in 4th Quarter 2020

**Pharmaceuticals**

- **Regulatory Approvals:**
  - DARZALEX FASPRO (daratumumab and hyaluronidase-fihj) - Becomes the First FDA-Approved Treatment for Patients with Newly Diagnosed Light Chain (AL) Amyloidosis
  - CABENUVA (rilpivirine/cabotegravir) - U.S. FDA Approval and European Commission Authorization of the first complete long acting injectable HIV treatment
  - TREMFYA (guselkumab) - European Commission Approves First-in-Class treatment for Active Psoriatic Arthritis (PsA)

- **Regulatory Submissions:**
  - Amivantamab - Submission of U.S. FDA and European Marketing Authorization Application for Treatment of Patients with Metastatic Non-Small Cell Lung Cancer with EGFR Exon 20 Insertion Mutations
  - BCMA CAR-T Therapy (cilta-cabtagene autoleucel) - Rolling Submission of a Biologics License Application to U.S. FDA for the Treatment of Relapsed and/or Refractory Multiple Myeloma
  - DARZALEX (daratumumab and hyaluronidase-fihj) - Janssen Submits Applications in U.S. and EU Seeking Approval of DARZALEX FASPRO (daratumumab and hyaluronidase-fihj)/DARZALEX (daratumumab) Subcutaneous (SC) Formulation in Combination With Pomalidomide and Dexamethasone for Patients With Relapsed or Refractory Multiple Myeloma
  - Paliperidone Palmitate 6-Month - Submission of Supplemental New Drug Application to U.S. FDA and European Marketing Authorization for Treatment of Schizophrenia in Adults
  - XARELTO (rivaroxaban) - Submission of Application to U.S. FDA for New Indication to Expand Use in Patients with Peripheral Artery Disease

- **Other:**
  - Janssen Receives Positive CHMP Opinion for SPRAVATO (esketamine Nasal Spray) for the Rapid Reduction of Depressive Symptoms in a Psychiatric Emergency for Patients with Major Depressive Disorder
  - Janssen Acquires Rights to Novel Gene Therapy, Pioneering Treatment Solutions for Late-Stage Age-Related Macular Degeneration
  - Johnson & Johnson Initiates Second Global Phase 3 Clinical Trial of its Janssen COVID-19 Vaccine Candidate

**Medical Devices**

- **Regulatory Approvals:**
  - VELYS Robotic-Assisted Solution - Receives 510(k) FDA Clearance Designed for Use with the ATTUNE Total Knee System

# 2021 Segment Outlook & Quarterly Sales Phasing*

*Illustration intended to visualize quarterly phasing; Chart not to scale*

<table>
<thead>
<tr>
<th>Segment</th>
<th>Full Year Considerations</th>
<th>Quarterly Sales Phasing and Considerations</th>
</tr>
</thead>
</table>
| **Pharmaceutical**    | Continued strong, above market performance                                                  | • Anticipate more balanced quarter to quarter growth throughout 2021  
• First quarter prior year comp. included ~200 BPS favorable impact of longer terms script durations and upside due to one-time favorable prior period adjustments  
• Prior year included some negative impacts from reduced office visits and access to physician administered drugs due to COVID-19 restrictions most prominent in Q2 and reduced through the remaining quarters of 2020 |
| **Medical Devices**   | Double digit growth driven by procedure recovery and continued momentum from new product introductions  | • Tempered growth in first quarter with anticipation of continued, moderate procedural disruption  
• Expect highest growth rate in second quarter given prior year market disruption and 2021 recovery  
• Expect continued market recovery and strengthened core platforms to drive revenue growth through 2021 |
| **Consumer Health**   | Continue to drive competitive market growth                                                  | • Negative impact to first quarter sales driven by enhanced COVID-19 demand comparisons primarily in OTC products  
• Continued SKU rationalization program negative impact to first half growth  
• Anticipate normalized growth in the second half as consumers return to typical usage patterns in areas like Skin Health / Beauty |

*Note: Fourth Quarter growth will be negatively impacted by additional 2020 selling days that will not be repeated in 2021 (Q4 2020: ~4pts of growth related to additional selling days)*

*Chart is not to scale; Illustration intended to visualize quarterly phasing impact of operational sales growth rates throughout 2021*
Consumer Health Highlights – Full Year 2020

Strong growth in OTC, Oral Care and Wound Care

Reported: WW 1.1%, U.S. 9.0%, Int’l (4.6)%
Operational1: WW 3.0%, U.S. 9.0%, Int’l (1.3)%

**WW Sales $MM**

- **OTC**: $4,824, 8.5%, 9.4%
- **Skin Health/Beauty**: $4,450, (3.1)%, (2.0)%
- **Oral Care**: $1,641, 7.4%, 9.7%
- **Baby Care**: $1,517, (9.4)%, (4.9)%
- **Women’s Health**: $901, (8.6)%, (2.7)%
- **Wound Care/Other**: $720, 7.2%, 8.3%

Pharmaceutical Highlights – Full Year 2020

Market leading performance despite the impacts of COVID-19

Reported: WW 8.0%, U.S. 7.8%, Int’l 8.3%
Operational¹: WW 8.2%, U.S. 7.8%, Int’l 8.8%

WW Sales $MM

- Immunology: $15,055, 7.9%, 8.2%
- Infectious Diseases: $3,574, 4.7%, 5.2%
- Neuroscience: $6,548, 3.5%, 3.9%
- Oncology: $12,367, 15.7%, 15.8%
- CVM/Other: $4,878, (6.0)%, (5.7)%
- Pulmonary Hypertension (PH): $3,148, 20.0%, 20.0%

Key Drivers of Operational Performance¹

- Immunology:
  - Growth driven by strong uptake of STELARA in Crohn’s Disease and TREMFYA in Psoriasis, share growth of SIMPONI ARIA, and U.S. immunology market growth
  - REMICADE decline due to increased discounts/rebates and biosimilar competition

- Infectious Diseases:
  - Share and volume growth of SYMTUZA and JULUCA, partially offset by increased competition for PREZISTA/PREZCOBIX/REZOLSTA and PREZISTA OUS LOE

- Neuroscience:
  - Paliperidone long-acting injectables growth due to strength of INVEGA SUSTENNA/XEPLION and INVEGA TRINZA/TREVICTA from new patient starts and persistency, partially offset by cannibalization of RISPERDAL CONSTA and declines in CONCERTA due to generic entrants

- Oncology:
  - DARZALEX continued strong market growth and share gains globally, driven by patient uptake in all lines of therapy and the launch of a subcutaneous formulation in the U.S. and EU
  - Strong sales of IMBRUVICA due to market growth globally and maintaining a strong share leadership position in all key indications
  - Growth in ERLEADA driven by launch uptake and share gains
  - Lower sales of ZYTIGA due to generic competition in the U.S., partially offset by continued strength in the EU
  - Lower sales of VELCADE due to generic competition

- Cardiovascular/Metabolism/Other (CVM/Other):
  - Lower sales of PROCRIT/EPREX due to biosimilar competition
  - Growth in XARELTO due to demand strength, partially offset by higher rebates
  - INVOKANA/INVOKAMET growth driven by market growth and favorable channel mix in the U.S. as well as gains in the EU, partially offset by U.S. share declines due to competitive pressures

- Pulmonary Hypertension (PH):
  - Growth driven by strong sales of OPSUMIT and UPTRAVI due to continued share gains and market growth

Adjusted Operational Sales²: WW 8.4%, U.S. 7.8%, Int’l 9.1%
Additional shipping days contributed ~1% to WW growth

¹ Non-GAAP measure; excludes the impact of translational currency; see reconciliation schedules in the Investors section of the company’s website.
² Non-GAAP measure; excludes acquisitions and divestitures and translational currency; see reconciliation schedules in the Investors section of the company’s website.
Note: Values may not add due to rounding.
Medical Devices Highlights – Full Year 2020

Decline driven by negative impacts of COVID-19 on Global Medical Device Markets

Reported: WW (11.6)%, U.S. (10.9)%, Int’l (12.2)%
Operational: WW (11.4)%, U.S. (10.9)%, Int’l (11.8)%

WW Sales $MM

Interventional Solutions $3,046
1.6%, 1.3%

Orthopaedics $7,763
(12.2)%, (12.3)%

Vision $3,919
(15.2)%, (15.1)%

$22,959
(11.6)%, (11.4)%

Surgery $8,232
(13.4)%, (12.8)%

Key Drivers of Operational Performance

Interventional Solutions
- Electrophysiology growth driven by Atrial Fibrillation share gains and market recovery coupled with strong THERMOCOOL SMARTTOUCH SF Contact Force Sensing Catheter and diagnostic catheter sales offsetting negative impacts from COVID-19

Orthopaedics
- Hips: Decline due to the negative impacts of COVID-19 partially offset by leadership position in the anterior approach and related strong market demand for the ACTIS stem and the KINCISE surgical automated system
- Knees: Due to negative impact of COVID-19
- Trauma: Market impacted by COVID-19 partially offset by uptake of new products
- Spine & Other: Market impacted by COVID-19, partially offset by new products
  - Spine: WW: ~14%, U.S.: ~12%, OUS: ~16%

Surgery
- Advanced:
  - Endocutters: ~9% primarily due to negative impacts of COVID-19, partially offset by continued success of new products primarily in APAC.
- Biosurgery: ~FLAT; Share gains & market growth due to new products and a recovery from a prior year supply disruption in the U.S. offsetting negative impacts from COVID-19
- Energy: ~9% primarily due to negative impacts of COVID-19 and competitive pressure in the U.S., partially offset by success of new products primarily in APAC
- General: Decline primarily due to negative impacts of COVID-19 coupled with the ASP divestiture and an unfavorable prior period pricing adjustment in the U.S.

Vision
- Contact Lenses/Other: Impact of COVID-19 and decreases in US and APAC stocking partially offset by continued success of lenses in the ACUVUE OASYS family
- Surgical: Driven by negative impacts of COVID-19.

Adjusted Operational Sales: WW (10.5)%, U.S. (10.2)%, Int’l (10.9)%
Additional shipping days contributed ~1% to WW growth
